

# JUAREZ PASSES INTO HANDS OF REVOLUTIONISTS

## City Taken by Rebels Without Bloodshed

# BANDITS KILL TWO AMERICANS

EL PASO, Texas, May 3.—Juarez tonight is in the hands of the Sonora revolutionists. The revolution was peaceful and the announcement of General J. Gonzalez Escobar was accompanied by a popular celebration. The Oregon junta from El Paso crossed to Juarez tonight.

A telegram from American Consul Stewart in Chihuahua City tonight said the district surrounding the state capital is quiet and all Americans are safe. The telegram added that Parrel and Chihuahua, two important mining towns are in the hands of the rebels. Americans here are safe and the mines and melters were not required to cease operations.

Military men in the mining districts controlled by the rebels have announced that foreigners will be permitted to continue to reside there and will be given complete protection. All foreign residents are being treated with the utmost consideration, Mr. Stewart declared.

Following the fighting for possession of the state capital, the rebel commanders forbid looting, released all political prisoners and announced that Mexicans and foreigners alike would not be molested if they maintained absolute neutrality, Mr. Stewart declared.

General Pefias Calles and Governor Adolfo de La Huerta of Sonora are expected here tomorrow to take charge of the situation. Earlier in the day it had been announced that the Juarez revolt had no connection with the Sonora movement but this was denied tonight.

Tonight Juarez is quiet under military rule. It was announced tonight that the Juarez revolutionists will guarantee safety to foreigners, Mexican civilians and political refugees who desire to return to that portion of Chihuahua controlled by the rebels. This guarantee will hold good as those who take advantage of it do not become involved in political affairs.

All men who held federal office in Chihuahua will be replaced within the next few days by General Enriquez candidate for governor prior to the revolution. A marching north with a force of rebel troops and will arrive in Juarez for a conference with General Calles and Governor de La Huerta. Military men in Juarez declare that Enriquez will become governor of the state after the new government has been completely organized.

Troops commanded by General Cuernavaca Martinez were being used to Juarez tonight from Chihuahua City to reinforce the rebel garrison. A troop train was sent south on the Mexican central immediately after the Juarez garrison revolted to repair the bridges so that the troops for the state capital would not be delayed.

**Warrior Americans Killed.**  
Washington, May 3.—The murder of two more Americans in Mexico, reported today to the state department, accentuated the concern with which officials here are watching developments beyond the border. There was nothing, however, to indicate that the attitude of the Washington revolutionary movement might be affected by the incidents.

Request for additional warship protection on the east coast of Mexico had already been forwarded to the navy by the state department. This move was said to indicate the view of officials as to the unsettled conditions prevailing in that region, nominally at least, held by Carranza forces.

On the border, the reported closure of the port of Juarez was interpreted as indicating defection of the federal garrison under General Escobar to the rebel cause. Loss of this entry port, officials said would be a serious blow to the Carranza forces, as a revenue producing capacity, they believe complete rebel control of that state of Chihuahua would be the logical result.

The murder of Eben Francis Greenawald and his young son by Mexican troops near El Robero, only 125 miles from Mexico City, brought from the American embassy in Mexico City a prompt and emphatic demand that the Mexican government arrest and punish the murderers. The American government contends that the Carranza authorities were responsible for the protection of the Carranza forces because of the presence of Mexican troops in the immediate vicinity.

The date of this killing of the two destroyers to Mexican waters was not made public but he belief was expressed that they could be sent to once.

Destroyers will be stationed at Tampico, Tuxpan, Vera Cruz and Portorrea, ready to take off any mariners who may be in danger.

# UTILITY CONCERNS WOULD RAISE RATES

## HEARING HELD MONDAY BEFORE STATE COMMISSION

Operating Heads Testified That It Is Now Impossible to Increase Public in Buying Utility Stocks and Bonds—Suggest Revaluation of Properties in Order to Make Higher Earnings Possible.

The state public utilities commission held a hearing in Springfield Monday, for a discussion of the situation confronting the utility companies today in their efforts to make enlargements or improvements in the service rendered. The commission called a hearing on its own volition in Chicago last Thursday, and the hearing yesterday was really a continuation of the Thursday meeting in Chicago.

All the members of the commission were present yesterday, including James H. Wilkerson, chairman; Frank H. Funk, Walter Shaw, Thomas Dempsey and P. J. Lucey.

There were possibly 60 representatives of utility companies present and the principal witnesses of the day were W. S. Bloom, president Central Union Telephone Co.; Senator O. F. Berry, president Independent Telephone companies; W. H. Sawyer, who is in charge of the operation of the group of eight utilities centered in East St. Louis; Marshall E. Samsell, president of the Central Illinois Public Service Co.; and B. J. Denman, president of the Tri-Cities Electrical Co. The Jacksonville men who attended the hearing were Mayor E. E. Crabtree, Ald. T. A. Chappin, Henry Frisch and E. H. Gray.

**Can't Get Funds.**  
It has been the repeated statement of the utility concerns that under present financial conditions they are unable to secure the funds necessary for the proper present-day operation of their business or for enlargements. The witnesses yesterday outlined the situation as far as their own public utilities are concerned and the general statement was made that the utility concerns of Illinois need today \$50,000,000 of additional money for the proper operation of their business and to give to the public increased service.

In substantiating their claims which will mean higher rates for service, the company representatives presented facts to show the present tightness of the money market.

It was declared by witnesses that the public was "staying off" investments in utility concerns because of the known fact that the increase in operation costs had been very large and in most cases there had not been a corresponding increase in the charge for service. For this reason the witnesses said that people are now loathe to invest their money in utility company securities.

The prices which utilities in Illinois are allowed to charge for service rendered are based not upon the amount of stock or bonds that the concerns have issued, but upon the valuation of the property. The utility commission through its engineers fixes the rates, but could also be able to borrow additional money for the financing of extensions.

Not very much was said about rate increases yesterday, but it would inevitably follow that rate increases would come if the commission increases property valuations, for it is these valuations that give the basis for rate making.

**Public Sentiment.**  
One utility head who testified concerned himself more with what he said would be the effect of increasing valuations on the public sentiment than he did with figures. In fact, most of his argument was to the effect that the people were expecting to pay increases and were not concerned about the amount of increases but are concerned about the service given. He said the people wanted better service and more extensions and that there would be no objections from the great majority of them. He went on to say that public opinion was at the bottom of agitation against utility companies and that it was not the patrons who talked about excessive rates, but certain men who are in politics or who want to break in.

The witnesses talked in a very informal way, as they were called by P. B. Alschuler, of Aurora, one of the attorneys for the utility companies. Mr. Alschuler spoke only an occasional sentence, leaving it to the witnesses to set forth conditions in their own way. While some little was said about increase of rates, that was done mostly by inference as the utility men instead of talking increased rates referred to higher property valuations and the great difficulty in interesting the public in making investments in utility securities.

Senator Berry, in his statement, however, suggested that he hoped the commission would be able to enter an early order authorizing increases in rates, even if these rates should be subject to a refund to the consumer of the difference between the temporary (Continued on Page Four)

# WOOD CARRIES MARYLAND OVER SENATOR JOHNSON

## General's Lead Over Californian Over 7,000 Votes

# LITTLE INTEREST IN PRIMARY

BALTIMORE, Md., May 3.—Practically complete returns tonight from today's presidential primary in Maryland gave Major General Leonard Wood 14,663 votes to 7,113 for Senator Hiram W. Johnson, a majority for the soldier candidate of 7,550. General Wood carried all the counties but Allegheny and Washington. Johnson's majority in the former county was 1,000.

Wood will have 117 of the 129 votes to the state convention which will select 16 delegates to the Chicago convention. All of these will be instructed to vote for him as long as they "conscientiously believe" he has a chance of being nominated in accord with the state primary election law.

Little interest was displayed in the election anywhere in the state, the vote being one of the lightest ever cast at a primary in Maryland.

The following incumbent congressmen were renominated:

Democrats: Carville, D. Benson, 2nd district; Charles P. Coady, third district; J. C. Charles Linthicum, fourth district.

Republicans: William M. Andrews, first district; Sydney E. Mudd, sixth district and Frederick N. Zihlman, sixth district.

**Abandon Recount Plans.**  
New York, May 3.—Supporters of Senator Hiram W. Johnson of California, have abandoned their plans for a recount of votes cast in the New Jersey presidential primary last Tuesday. It was announced late today by A. J. Joy, assistant eastern manager, after a conference of Johnson leaders lasting most of the day.

"Senator Johnson has agreed that there is no chance of going further in the matter of seeking a recount in New Jersey," Mr. Joy said. "The vote there is now a closed incident so far as the Johnson managers are concerned."

# J. B. BEADLES WILL BE BURIED HERE

## Former Jacksonville Business Man Died in Guthrie, Oklahoma

The death of James B. Beadles, formerly a resident of Jacksonville, occurred at his home in Guthrie, Okla., Sunday afternoon. A message was received jointly by relatives and by John G. Reynolds. The remains are expected Thursday and the funeral will be held at the Reynolds chapel at 3:30 in the afternoon of that day. Interment will be in Diamond Grove cemetery.

The deceased was born Nov. 28, 1841, and was the son of Mr. and Mrs. Thomas G. Beadles. After attending the schools of Winchester, Mass., he came to Jacksonville, where he was engaged in mercantile business and made large investments in lands.

The deceased was a member of the Presbyterian church and was a member of the Masonic order.

Beside his wife and son, he leaves three sisters and three brothers: Mrs. Seth Tilden of Galesburg, Mrs. C. N. Wright, Manchester; Mrs. J. W. Hamilton, this city; John M. Beadles, Los Angeles; Thomas and W. O. Beadles of Murrayville.

**MOVE TO REDUCE PRICES.**  
New York, May 3.—One of New York's largest department stores inserted advertisements in today's newspapers announcing that it would attempt "to break the backbone of high prices" by offering its stock valued at \$20,000,000 at a reduction of twenty percent. The only goods excluded would be about \$50,000 worth of merchandise purchased under price restrictions which cannot be "honorably changed."

# CANDIDATES O. K'D

Montgomery, Ala., May 3.—Dr. P. A. Baker, superintendent of the Anti-Saloon League of America, in a statement here today, said the prohibitionists might safely support in the presidential campaign Herbert Hoover, Major General Leonard Wood, Governor Lowden, Wm. G. McAdoo, Charles Hughes, Senator Poindexter and Wm. J. Bryan.

MOUNT CLEMENS, MICH., May 3.—The trial of Lloyd Prevost, charged with the murder of J. E. Staley, a wealthy Mount Clemens man, last winter, was halted today before it got fairly under way, owing to a death in the family of one of the defense attorneys. The case will be continued Thursday.

# METHODISTS HEAR SPEECHES BY BRITISH AND CANADIANS

## Proposed Unification With Church of the South Also Discussed

DES MOINES, Ia., May 3.—The session of the Methodist Episcopal general conference in convention here tonight was given over to a reception to the fraternal delegates from the British Wesleyan church and Canadian Methodist church.

Dr. F. Luke Wiseman of the Methodist mission at Birmingham England, represented the British Wesleyan church and delivered an address complimenting both countries on the mutual friendly feeling existing between them.

Dr. Albert Moore, representing the Methodist church of Canada, told of the work of his church in Canada, and expressed the hope that the great Methodist bodies of America may soon be united under a satisfactory plan.

Dr. Moore is secretary of general conference of the Canadian Methodist church.

Discussion of the proposed unification with the M. E. church, South consumed considerable time today. The report of the commission on unification, which placed before the conference the matter of uniting the two churches in a regional conference plan, with the regional boundaries determined geographically as presented without recommendation. The report was submitted to the special committee, for an early recommendation.

# PLAN INVESTIGATION OF BREAD PRICES

Chicago, May 3.—A successor to Major A. A. Sprague Jr., who resigned last month as chairman of the Illinois federal fair price commission will be announced today. District attorney Clyne said today upon his return from Washington, where he conferred with Attorney General Palmer.

Mr. Clyne said his office would investigate bread prices, which Chicago bakers predicted would advance following the granting of demands for \$50 a week made by journeymen bakers. Following the investigation the case would be turned over to the fair price commission which Mr. Clyne said would begin functioning again this week.

# ST. LOUIS GIRL AGAIN ON TRIAL

ST. LOUIS, Mo., May 3.—The trial of Ursula Broderick, 16 years old, on a charge of first degree murder for killing her step father, Joseph F. Woodlock, in April, 1919, was continued late today and Wednesday following the selection of 47 veniremen from which a jury is expected to be chosen.

The continuance was granted on request of attorneys so they might examine the records of the prospective jurors.

It is the third time the girl has gone to trial on the charge.

Paris, May 3.—The homes of several union leaders were raided in Paris today. Extremist leaders at Rouen, Moulins, Marseilles, Toulouse and other places have been arrested.

Sentences ranging up to 8 months in prison were given to thirty persons arrested in connection with the May day outbreaks.

# ALL EYES TURN TO CALIFORNIA AND INDIANA TODAY

## Four Corned Fight In Hoosier State Primary

# JOHNSON AND HOOVER FIGHT

INDIANAPOLIS, May 3.—Indiana voters tomorrow will express their preference of candidates for president, governor and other public officers and will elect delegates who will express their preference of candidates for president, governor and other public officers and will elect delegates to the state convention and other conventions.

The fight is centered around the republican presidential nomination—with four men in the race—Hiram Johnson, General Wood, Senator Harding, Ohio, and Governor Frank O. Lowden of Illinois. There are no candidates for the presidential nomination on the Democratic ballot.

Delegates to both state conventions will name the delegates to the national conventions. Unusual interest is attached to the race for the nomination for governor on both sides. There are three republican and four democratic candidates. The republicans are Warren T. McCray, Kentland; James W. Fessler, Indianapolis, and Edward C. Toner of Anderson. The democrats are Dr. Carlton B. McCullough, Indianapolis; Mason Niblack, Vincennes; John Elsenberger, North Manchester and J. K. Risk of Lafayette.

# Big Fight in California.

San Francisco, May 3.—California voters will ballot tomorrow at the presidential primary election for delegates to the republican, democratic and prohibition national party conventions pledged to Senator Hiram Johnson and Herbert C. Hoover. Vigorous campaigns in behalf of each group closed tonight.

The unplugged democratic ticket has a list of 27 names from which the voter will select 26 delegates. Henry R. Childs of Los Angeles, who announced himself in favor of a less drastic enforcement of the national prohibition law, the independent candidate of the ballot. The prohibition party is pledged to the candidacy of Henry Clay Needham of Los Angeles.

# GANG OF BANDITS VISIT DANVILLE

Danville, Ill., May 3.—C. W. Curtis and his wife, said to be from Indianapolis, were arrested here today and charged with blowing a safe at a local theater and taking \$2,600. The police recovered over \$1,200 taken from the safe. Another man is sought, said to be one Ainsworth.

Curtis was arrested in an alley near the theater. He attempted to get word to his wife after his arrest. The police went to the hotel where Mrs. Curtis was staying and took her into custody. She had two revolvers in her possession.

There were seven burglaries and one attempted burglary and six automobiles stolen in Danville last night. The police believe the entire series of robberies due to the operations of an organized gang recently arrived in the city.

# PLAN TO EVICT STRIKING TENANTS

CHICAGO, May 3.—Eviction of tenants who "struck" against rent increases and refused to move will be started this week, according to Dennis Eagan, bailiff of the municipal court. 500 suits to oust tenants were filed today by landlords. Last month more than 1,500 cases were started. Twenty nine judgments ordering tenants to vacate or be put out were rendered today by a judge.

Reports that more than 1,000 vacant apartments had been thrown on the market were denied by Adolph F. Kramer, president of the Chicago real estate board.

# CLASS FRIEND OF ROOSEVELT DEAD

Chicago, May 3.—Otto C. Butt, lawyer, friend of Theodore Roosevelt, was dead at his home in Winnetka today.

Butt, as president of the Chicago branch of the Friends of a man democracy, issued a statement in German, setting forth the American war time which was dropped by army aviators over the German lines.

# CITY COUNCIL WILL DRAW THEIR SALARIES

## Payroll For the Year Approved Monday Evening—Totals \$308

### —Many Themes Discussed by Body.

It was a busy session the city council held Monday evening. Many subjects were discussed, among the time honored East State street subway.

The council approved claims and ordered them paid and received officers reports and placed them on file. Automobile parking, electric wiring, the city dumping grounds and garbage also came up for discussion.

When the clerk called the roll it showed all members present with Mayor Crabtree presiding. The minutes of the last meeting were read and approved.

Alderman Cain brought to the attention of the council a communication from the Union Iron Products company of East Chicago, Indiana, relative to signs for traffic regulation. He was given power to act in the matter.

Superintendent of Street Packer lot donated to the city by Henry and Reed had been placed in condition. Alderman Moore said he had spoken to Mr. Rynders about looking after the lot. He was willing to do this for the free gratis offerings, as he believed all auto owners would be willing to pay a small fee to have their cars protected.

# Payroll For City Council.

Claims against the city were presented and all those properly approved were ordered paid. Among these claims was the payroll for the city officials for the year from May 1st, 1919 to May 1, 1920. The total of the payroll for the mayor, city attorney, treasurer and aldermen footed up \$308.

The reports of the following officers were received and ordered placed on file.

Harry H. Summers, sexton of Diamond Grove cemetery, reported twenty interments.

W. H. Cobb, water superintendent, Water rent, \$3,338.85. Meters sold, \$1. Meter repairs, \$25.75. Meter coupling, 80 cents. Taps, \$6. Fish trap, \$12. Total, \$3,503.86.

Frank Kiloran, chief of office, reported eight arrests. Five state and three city cases. Total fines and costs, \$31.20. He also reported \$1,343 collected for wheel tax and turned over to the city treasurer.

John E. Pires, sexton of Jacksonville cemetery, reported thirteen interments for the month.

R. L. Pyatt, city clerk, reported the following collections. Clerk's office \$237.50. Jacksonville cemetery, \$294.50. Diamond Grove cemetery, \$1,026.80.

J. M. Coons, justice of the peace, fines collected, \$30.00. City costs, \$2.20. J. P. costs, \$3. A. M. King, city physician, total deaths, 56. Male, 38; female, 19. By wards: First ward, 13; Second ward, 2; Third ward, 9; Fourth ward, 32.

Under one year, 5; one to five years, 3; five to twenty years, 1; twenty to fifty years, 13; fifty to seventy years, 17; over seventy, 18.

# City Dumping Ground.

Alderman Ehrie, chairman of the sanitary committee, said he had inspected the city dumping grounds and found them not to be in such bad condition. The alderman suggested that the city should install some system as to dumping and comply with the rules of the ground owned by the city.

Alderman Moore brought up the matter of a lot which had been purchased by a party in Diamond Grove cemetery. There was a large tree on the lot and it would be impossible to bury anyone on it. He suggested that the best thing would be to let the party select another lot. The matter was referred to the cemetery committee with power to act.

# Increased Utility Rates.

Alderman Chapin spoke of the mayor and himself making a trip to Springfield to attend a hearing of utility companies of the state before the utility commission. Alderman Chapin said that practically all utility companies in the state furnishing gas, electric current and telephone service is asking for the right to increase their rates.

The alderman thought the matter probably would be taken under advisement by the utility commission and that the cities in which the companies were located probably would be asked to present the city's side of the case.

Mayor Crabtree said he had called upon J. E. Bretz who has the contract for paving East State street. He had told Mr. Bretz that the street car company would be out of his way in a few weeks. Mr. Bretz assured him he would be here by the middle of June and maybe the first of June to fulfill his contract.

Alderman Williamson said that the work was progressing on the Vandalia road. It could now be used and if they kept at it this week without bad weather interfering, the work would be completed.

# Parking Automobiles.

Alderman Chapin again brought up the matter of the parking of automobiles on the city street. He suggested that Mr. Rynders be furnished with tags to allot people to space and that numbers be placed showing where the cars should be parked. This matter was referred to the police committee with power to act.

Alderman Flynn said local teamsters were kicking about paying wheel tax, while teamsters were kicking about paying wheel tax, while teamsters were kicking about paying wheel tax.

# TORNADO SWEEPS OKLAHOMA TAKING TOLL OF DEATH

## 51 Persons Reported Killed and 100 Injured

# PROPERTY LOSS ALSO HEAVY

MUSKOGEE, Okla., May 3.—Fifty-one persons were killed and approximately one hundred injured by a tornado which swept Peggs, Okla., a small town in Cherokee county. Sunday night according to reports sent here tonight by parties searching the wreckage for victims.

Many of the injured are seriously hurt, the report said. No estimate of the property loss was available.

Relief parties from nearby towns which arrived at the stricken village this morning, searched all day in the mud and tangled wreckage for victims of the storm.

The first train load of injured, numbering between thirty and forty, arrived at Muskogee early tonight.

Wire communication with the storm-swept area was impossible. Members of rescue parties who returned here tonight with injured told of difficulties encountered in locating and identifying the bodies of the victims. A deluge of rain accompanied the tornado and when the first relief party arrived the village was a tangled mass of wreckage, with water standing everywhere and mud shootop deep.

In some cases several bodies were found among the ruins of a single building, indicating that whole families had been killed. The bodies were covered with mud, making identification difficult.

Many were the freaks of the storm told by those who visited the stricken area.

In one instance, a small building uninhabited was left standing in the heart of the little town and while brick structures surrounding which had housed many persons were razed. Clothing was found plastered on trees several miles from the path of the storm.

The area swept by the tornado was said by members of the rescue parties to be about three miles long and a mile wide.

Describing conditions at Peggs, relief workers said there was no way to take care of injured in the town as the entire village had been virtually destroyed. Eight persons, too badly injured to be moved, were left in one of the few remaining houses under the care of nurses and physicians while the less seriously injured were taken to nearby towns.

"Dead men, women and children were in every pile of wreckage," said Tams Bixby, Jr., Muskogee newspaperman, who was at Peggs this afternoon. "I saw as many as twenty dead in a single heap of ruins. There was no way to identify them. The bodies were removed and laid to one side while doctors and nurses did what they could to alleviate the suffering of the injured with the meager equipment which they were able to bring with them."

# LABOR LEADERS DENOUNCE PALMER

CHICAGO, May 3.—Speakers denounced Attorney General Palmer and the national administration at the convention of the Ladies' International Garment Workers Union. Clarence Darrow declared Mr. Palmer was trying to discredit organized labor in the eyes of the country by circulating reports such as the May 3rd scare which had no foundation in fact.

Otto Branstetter, secretary of the national socialist committee, said the espionage act was an instance of capitalist injustice, "Only in our own party and in public ownership of industries can labor triumph," he said.

More About Overalls

In our advertisement last week we told you our opinion of the Overall Fad. Just read the following dispatch from the Chicago Herald and Examiner:

MAKES A MILLION IN OVERALL FAD  
By F. C. BERTELLI.  
Herald and Examiner-Universal Cable

PARIS, April 25.—Flashing like a meteor into Paris, loaded with more diamonds than the late "Jim" Brady, and scattering handfuls of bills with the prodigality of "Million Dollar" Gates, Johnny Sorenson of New York, the first overall millionaire, who has just sold out his interest in the big overall factories in Newark, N. J.; Schenectady, N. Y., and Buffalo, N. Y., at a thousand per cent profit arrived at Claridge's grabbing the royal suite a moment before Prince and Princess Christian telephoned requesting reservation.

At the Longchamps races today Sorenson announced he was going to Monte Carlo Thursday to "break the bank," and then as an inspiration, he sent a thousand franc note to the orchestra leader with the request to play nothing but the latest American jazz.

"The overall campaign in America is the biggest publicity stunt ever pulled off," said Mr. Sorenson.

"It originated in the brain of a New York reporter, who, seeing the possibilities of the 'story,' went to the biggest overall firm in the country and put the scheme in operation. He got \$10,000 for the idea and was given a job at the head of the firm's publicity department.

"The stock of my company bounded from 43 to 600 in a few days after the idea was sprung on the public. At the psychological moment I sold out and grabbed the first boat for France to get a cocktail."

"THE WHOLE WORLD KIN"

We read so much about labor unrest in Chicago and differences which arise among the workers that it is refreshing to read of a "touch of nature" that makes these workers kin. Sunday 75 carpenters spent the day in helping rebuild houses at Dunning wrecked by the recent storm. They donated their services and many a family well-nigh homeless was made happy again.

THE GANG SPIRIT

A scout master in his annual report said: "In this brief ten years since the Boy Scouts of America began in the United States we have had the great satisfaction of having been able to demonstrate to the parents of America that the gang spirit is a natural spirit in a boy and can be made the agency of his training in citizenship.

In this decade it has been established that almost all that is needed is right leadership in order that boys shall obey the better instincts of their natures.

While these were the facts upon which the witnesses dwelt comparatively little was said about proposed increases in the charges for service rendered the public. Of course the talk about higher valuations meant higher rates, for if higher valuations are given the companies expect to be allowed a fair return upon the investments that such valuations show and increases in rates will inevitably follow.

There is no question but that operation costs of all utility companies have vastly increased in the last year or two. All of them are large consumers of coal and this fuel costs about 100 per cent more than it did two or three years ago. Just about the same increases are noted in other supplies and labor costs have also in-

creased in a marked way. Companies that are now selling service or products at the same price that prevailed before the war were either making too much money then or are not making enough now.

Some companies are able to show that they are today actually selling their products at prices which do not represent the cost to them of producing them. With these facts in mind, it seems reasonable that utility companies should be granted authority for higher rates.

WHAT'S THE USE

Government statisticians are still figuring about living costs and have compiled some new figures for the period from 1914 down to the present. It shows an average of 100 per cent increase. Just what would come from these illuminating statistics no one seems to know. The story told is already hackneyed and the figures have no value unless they help in some way to bring down the costs.

UTILITY COMPANIES AND THE LACK OF CANDOR

Representatives of utility companies appeared before the state commission Monday to give evidence about the difficulties that the companies are now having in interesting capital in the stocks and bonds of utility companies. Representatives of a number of the large companies made statements. Most of these statements dwelt upon the alleged difficulties and the necessity from the companies' standpoint of higher valuations of their present property holdings.

There is no question but that operation costs of all utility companies have vastly increased in the last year or two. All of them are large consumers of coal and this fuel costs about 100 per cent more than it did two or three years ago. Just about the same increases are noted in other supplies and labor costs have also in-

When it is said that "A Scout is loyal," "A Scout is trustworthy," there has simply been announced a truism of all boys. Scouting has not made boys loyal and brave and courteous, it has merely given boyhood the opportunity to express itself according to its better nature.

It seems fair to say that ten years ago boys of America for the most part were left to follow wrong bents in their natures for practically all of their leisure time.

ALL READY FOR KATCHA-KOO REHEARSALS

The director of Katcha-Koo, the oriental-American musical fantasia to be staged by the American Legion at the Grand Opera house May 19 and 20, arrived from Chicago yesterday. A meeting with the various committees in charge was held at the new Pacific hotel where all arrangements were made for the rehearsals. The various groups such as the Oriental ladies, priestesses, veil dancers, polo dancers, slaves and priests, are requested to be present for their first rehearsal at 7:15 this evening at the Pacific hotel banquet room. The principal characters will meet at 7:45.

The play hearkens of the Orient. There will be incense, the silken bloomers and turbans of India—and oodles of fascinating young women dressed in bewitching costumes. An interesting story is told with a wealth of entertainment in all lines that is almost an embarrassment of riches. The stage settings are fine, the costumes dainty and the music catchy and pleasing. The production centers about a notorious East-Indian Fakir, Katcha-Koo, who suddenly undergoes a complete meta-morphosis through being invested with a magic wearing apparel which induces characteristics hitherto unknown to him. He is changed from a "prayerful Hindu" to a love-making and flirtations gay young Lothario. This role will give abundant opportunities for the well known and versatile comedy talent of Leonard Potter. Two of the lead female roles are Dolly and Prudence, who will be taken by Mrs. Coddington and Miss Willela Miller, respectively. Dick and Harry, two of the prominent male roles, who play opposite Dolly and Prudence will be assumed by Messrs. Felix Farrell and Emmett Merryman. The professional director in charge, Frank J. Henn, thoroughly understands his business and a splendid start was made. It looks as though the production will have all the ear marks of the "real professional". Those locally in charge of affairs are Allen Jacobs, Virgil Edwards, Dick Reynolds and H. E. Woodman.

Rippling Rhymes By Walt Mason

CHANGING STYLES  
Last year I bought a limousine, the latest thing in boats, and it was painted black and green, and cost me many groats. 'Tis the very last word in cars, the agent cried 'all other cars will look absurd, this noble bus beside. The ancient style. And so I'll have to fill your soul with bliss, and it will last you while you live, I won't weep and wail.' And now my tumbler's out of style, I'd push her for a mile, I go out after dark. For if I take it out by day, by jokers it's abused; they ask me if it is the dray the Pilgrim Fathers used. My wife declares she'd rather walk, and proper pride maintain, than ride with me around a block in that ancestral wain. And thus the motor game is played upon the trustful chump, whose last year's model looks decayed and ready for the dump. My van is just as fine as silk, so far as chugging goes; but people of the critic ilk turn up the scornful nose; its hood is badly out of date, the windshield slant is vile, the body lines, which should be straight, bulge out in ancient style. And so I'll have to buy a gig that's up to date and new; and in six months, I'll bet a fig, 'twill be a has been too.

## Spring Is Here

Are you going to paint this year?

Did you ever stop to think what a coat of paint on your house or outbuilding would do for you?

It not only improves the looks of your buildings but it preserves the lumber from the weather.

Ho often have you driven by a place that was nicely painted and you commented upon the thrifty appearance of the property.

And while the old saying is "That clothes do not make the man" but in these latter years we all acknowledge that a well dressed man makes the best headway in this world, and so it is with your property, if it is well kept you will find that you have a higher standing in your neighborhood and among your associates.

We would call your attention that we have a full line of standard paints and oils for the interior as well as the exterior. Also a full line of brushes and painters' supplies, as well as a complete line of hardware, harness and farming implements.

## REGULAR HABITS NOW; CONSTIPATION GONE

**Mr. Brooks Suffered for Years—Tells How He Got Relief.**

"I have tried a great many things for constipation, but the only thing that has been able to relieve me is Milk's Emulsion. I am on only my second bottle and have to take very little of it now. My bowels move regularly every morning, which they have not been doing for a number of years. It seems like living again, after suffering so long. I recommended Milk's Emulsion to two of my friends and both say it is the best remedy they ever heard of."—Elmer C. Brooks, 329 Washington St., Peoria, Ill.

Constipation weakens the bowel muscles. Salts and purgatives only increase this condition. Milk's Emulsion is a real corrective remedy. You can try it under its warranty, without risking a cent.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to the whom sickness had weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## CABBAGE AND SAUSAGES WOMAN'S DIET

"I have doctored with the best doctors in the United States. Some said one thing and some another was ailing me and all wanted to cut me out, but May's Wonderful Remedy saved me, so now I can eat cabbage, sausage and anything I want to. Nothing hurts me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation that causes practically all stomach, liver and intestinal ailments, including appendicitis. ## Are You Doing the Same Thing as Bathing in Dirty, Stagnant Water?

Not if you know it—you are not. But perhaps you never thought of it in just that way.

You use water in washing face, hands or body for the purpose of cleansing. You use clean water—not dirty, stagnant water.

You use soap with the water—for the same purpose—cleansing. But, did you ever stop to consider the cleanliness, the purity of the soap. You should. Soap should be just as clean, just as pure as the water you use. All soap is not.

Remmo Sterilized Toilet Soap is—and you know that it is. In the first place Remmo is produced from the highest grade and purest ingredients procurable. Then it is sterilized at 198 degrees Fahrenheit. This process of sterilization eliminates any impurity that might have found its way into Remmo Soap during its manufacture. Remmo Sterilized Toilet Soap is the purest soap that can be produced—it is pure when it reaches you. It is pure when you use it. It possesses remarkable cleaning quality. Gives a copious creamy lather. It cleanses thoroughly. It beautifies the skin—leaves it refreshed and invigorated, with feeling of cleanliness that is a delight to experience.

Despite the high quality and absolute purity of Remmo Sterilized Toilet Soap, it is not expensive. Fact of the matter is, it costs no more than ordinary Toilet Soap. So there is no reason why anyone should not enjoy the luxury of this purest of soaps—and its many benefits.—Adv.

Alderman Moore called attention to much defective wiring in the city. He related that the lightning struck the telephone wires at his residence early Sunday morning and that it was a miracle that the dwelling was not set afire. Mayor Crabtree said he was in touch with the State Fire Marshall and expected to have an ordinance soon to cover all wiring.

Alderman McGinnis reported that residents of the First ward were complaining because the garbage department had not cleaned the alleys in that ward. Mayor Crabtree mentioned the action of the Automobile Dealers' association in appointing two members each month to attend council meetings. He called up Mr. Bluecke. Mr. Bluecke spoke briefly, saying the association was trying in every way to co-operate with the council in its work.

William J. Bates Succumbs to Heart Failure—Coroner Rose Held Inquest.

William J. Bates, a resident of Waverly, died suddenly in that city Monday morning. Mr. Bates had gone to the butcher shop of John Edge to purchase some meat. While waiting for Mr. Edge to wrap up the meat he fell and expired in a few minutes. Dr. Walter Allyn was called but Bates was dead when he arrived. He gave as his opinion that heart failure caused death.

Coroner Rose was notified and went to Waverly and held an inquest Monday afternoon. The jury was composed of C. C. Court, ney, foreman, Chris Mader, F. W. Wyle, Richard Cox, George Alderson and Russell Thome, clerk. After hearing the testimony of Dr. Allyn and Mr. Edge the jury returned a verdict in accordance with the facts as brought out in the testimony.

PRETTY WEDDING AT  
SCOTT COUNTY HOME

Miss Frances Wallace Becomes Bride of Earl Rodgers—Mr. and Mrs. Allen McCullough Entertain—Other Scott County News Notes.

Winchester, May 3.—A pretty home wedding occurred at 3 o'clock Saturday afternoon at the home of Mr. and Mrs. Nathan Wallace, seven miles west of Winchester, when their daughter, Miss Frances, became the bride of Earl Rodgers, of Jacksonville. The ceremony was performed by Rev. C. W. Casselev, with only immediate relatives and a few intimate friends present.

The bride wore a handsome traveling suit and a corsage bouquet of roses and sweet peas.

Just before the ceremony Miss Margaret Priest sang "At Down-Home," and afterward Miss Frances Cullas sang, "I Love You Truly." After the ceremony an elaborate luncheon was served.

The bride is a very popular young woman of Scott county. She graduated from the Winchester high school and later was employed at the School for the Deaf in Jacksonville. At a still later period she was a teacher at the School for the Deaf at Knoxville, Tenn. Mrs. Rodgers has many friends in both her home community and in Jacksonville, all of whom will unite in extending hearty good wishes.

Mr. Rodgers is well and favorable in Jacksonville. For a number of years he had a responsible position at the School for the Deaf and is now a traveling salesman for Jenkinson and Bode company. He was in the medical corps of the army and saw active service overseas.

The young people left Saturday afternoon for St. Louis for a brief wedding trip and upon return will be at home at 425 South Main street, Jacksonville.

Mrs. Carl Woodall and daughter, Lucille, left Sunday for Merritt, to spend several days with relatives.

Mr. and Mrs. Geo. Stewart are enjoying a family reunion with their sons, Ray and Allen, and families, of St. Louis. It is the first time that members of the family have all been together for two or three years, and the occasion is therefore a most happy one.

Miss Lucille Hamilton arrived Monday from Decatur, to visit her parents, Mr. and Mrs. T. C. Hamilton.

Harry Montgomery arrived Sunday from Davenport, Iowa, for a brief visit.

Mr. and Mrs. Allen McCullough entertained a number of relatives Sunday at a 6 o'clock dinner, the occasion being in honor of their daughter, Miss Alma, and Mr. Paul Markkille, whose marriage is an event in the not far distant future. The guests included relatives and intimate friends of the young people, and all the arrangements were such that the affair proved a most pleasant one.

Joseph Roark is confined to his home, west of town, by illness.

Mrs. M. L. McDonough left Saturday for Springfield, to visit her husband, who is a patient at St. John's hospital. Word was received here Monday that Mr. McDonough is doing as well as could be expected.

Rev. Mr. Elmore arrived Saturday afternoon from Chester and on Sunday occupied the pulpit of the Baptist church, both morning and evening.

Miss Mildred Funk, of Jacksonville, spent the week-end with her parents here.

Little left Monday afternoon for Jerseyville. Miss Little has been confined to her home, west of town, for several weeks, by illness, and will shortly return to her work as nurse in a Springfield hospital.

Mr. and Mrs. Michael Murphy returned home Monday, after a visit in Canton. Mr. and Mrs. Leo Murphy accompanied them home for a visit.

Mrs. Herbert Cooper and little daughter returned to their home in Carrollton, Monday, after a short visit with relatives here.

Robert Andell and wife, Albert Andell, James Andell and wife, left Monday afternoon for Chesterfield, Ill., to attend the funeral of Mrs. John Andell, Sr.

EX-GOV. YATES TO  
SPEAK IN NEW YORK

Will Make Memorial Day Address at Tomb of Gen. Grant

Former Gov. Richard Yates, it is announced, is to be an orator at the memorial services at the tomb of General U. S. Grant, at Riverside park, New York, on May 31st, at 2 p. m.

The exercises will be under the direction of the Memorial Day Committee, U. S. Grant Post No. 237 Dept. of New York, Grand Army of the Republic. F. W. Hedley is chairman and Chas. H. Dix commander.

If anyone should be called upon to speak of the Old Commander Congressman Yates, of Illinois is certainly fitted for the task.

THE TRI-CLASS LEAGUE

Members of the Tri-Class League of Illinois College, which includes members of the classes of 1895-1900 and 1901, met last night and decided to hold a reunion in June. The following committees were appointed:

Executive—Dr. A. M. King, Dr. Charles Hopper, T. W. Beadle, H. D. Dobyns.

Program—John Kearns, Dr. W. P. Duncan, Dr. A. M. King, Dr. A. H. Dollear.

Banquet—Dr. C. E. Cole, Dr. Charles Hopper, A. C. Metcalf, H. J. Capis, S. J. Tompkins.

Attendance—A. D. Fairbank, H. D. Dobyns, F. L. Gregory, T. W. Burdick.

UTILITY CONCERNS  
WOULD RAISE RATES

(Continued From Page One.)  
rates and those finally fixed after careful examination of the properties.

Some Possible Rates  
Some idea of the rates which may be expected if the commission authorizes the increases in values came from B. J. Denman, of Rock Island, president of the Illinois Electric Association. He told of a city of twelve thousand in the state of Ohio, where the gas rate had been raised to \$1.70 per 1,000, and of Ottumwa, Iowa, where the rates were increased from \$1.25 to \$1.50 per 1,000, and where it is the expectation that a rate of \$1.75 will soon be authorized.

H. J. Tunbaugh, formerly of this city and now associated with the law firm of Isham, Hamilton & Beall, is one of the attorneys for the utility companies and was associated in the hearing yesterday with Mr. Alschuler. Both of these attorneys are members of a committee on valuation and return, which recently published a report on behalf of the Illinois State Electric association, the Illinois Electric Railway association and the Illinois Gas association.

A Committee Valuation Report

This extended report sets forth that "cities and communities thrive and prosper only as their public utilities are able to expand to meet the increased demands made upon them. Today every live city in Illinois is demanding more and better service from its public utilities."

More than forty million dollars (\$40,000,000) are needed to pay for the extensions and improvements which should be constructed this year by the purely local public utilities of the state, in addition to the many millions required by the steam railroads. Failure to secure this vast amount of new capital will materially retard the normal growth and development of these Illinois communities.

1. A fair valuation of property.

2. Rates for service sufficient to pay, over and above expenses, an adequate return.

The report then goes on with an argument to prove that:

1st. A utility is entitled to a just and reasonable rate as distinguished from a merely non-confiscatory rate.

2nd. That in every rate hearing evidence should be introduced of a valuation based on reproduction cost new at prices prevailing at the date of the inventory.

3rd. That no depreciation should be deducted from reproduction valuation.

4th. That every utility is entitled to a rate of return sufficient to attract new capital to the enterprise.

Then there are other minor suggestions with reference to the amount of working capital needed and the funds for contingent reserve.

With the Sick

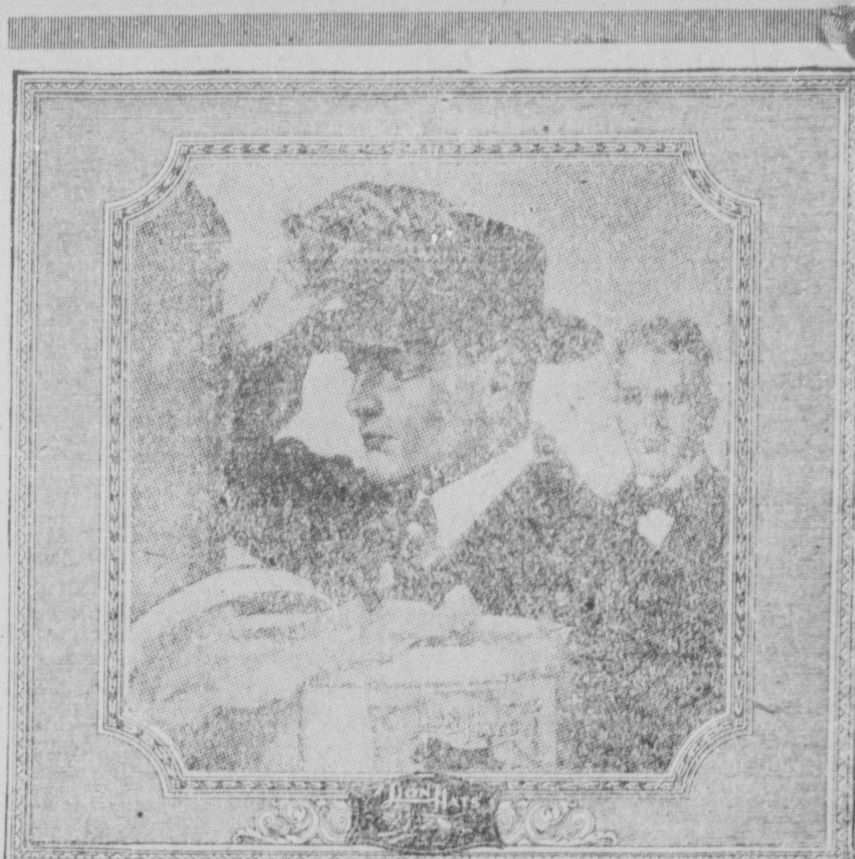

Mrs. A. J. Wiekler of South Sandy street is a patient at Passavant hospital.

Rev. J. C. Yemm, of Concord brought his young son, Dean, into Passavant hospital yesterday.

Bernard Gause, who has been very ill with pneumonia for several days at his home on North Church street, was very much improved yesterday.

RIDGELY FUNERAL TODAY

Springfield, Ill., May 3.—The body of William Barrett Ridgely, comptroller of currency during the administrations of Presidents McKinley and Roosevelt, arrived here today from Baltimore, Md., where he died last Friday night after an operation at Johns Hopkins hospital. Funeral services will be held here at 10 a. m. tomorrow morning at the home of his mother, Mrs. Charles Ridgely.

With the Kobzy Safety Signal

Housed on Your Rear Left Fender in Plain View of the Driver Behind, You Notify the Car Behind Just What You Intend to Do

Rear end collisions are practically unavoidable unless a definite means is used to signal traffic behind. Arm signals fail in critical moments and are impossible in closed cars. When at the wheel you are always wondering what the car ahead will do. The driver behind is wondering about YOU. Leave no doubt in his mind. Let him know definitely, positively, without chance of misunderstanding.

The Kobzy Signal Operates on the Semaphore Principle—Visible from Front and Rear—Day and Night.

—Endorsed by Leading Motor Clubs  
There is no mistaking a Kobzy Signal. At the touch of your finger on the control lever on your steering post a "Stop," "Right," or "Left" signal snaps up on your rear left fender.

## AMERICAN DAY OBSERVED IN CITY

### GREAT THROUG AT OPERA HOUSE SERVICE

Program Well Demonstrated Patriotic Enthusiasm of Local People—Strong Address by Attorney General Brundage—New Citizens Received.

Sunday, May 2nd was rather cool and uncomfortable but the state of the atmosphere was balmy in comparison with the attitude of the people of Jacksonville toward any and all who have any animosity toward any and all who are anything but thoroughly loyal and 100 per cent American, as we well evidenced by the grand assembly which packed the opera house which had been finely decorated for the occasion with a profusion of bunting and flags.

Splendid music was supplied by the opera house orchestra, the Madrigal club of the Woman's college with Misses Taylor, piano, Logan Downey, Moors and Holenback, violins accompanying. The singing was led most capably by Albert C. Metcalf and everything went off with a vim which well manifested the spirit of the people. Conspicuous in the front rows of seats were the grey heads of Grand Army of the Republic

and next them sat the Women's Relief Corps. The Boy Scouts and various other organizations graced the occasion with their presence and the whole affair was a complete success and went off without a hitch or jar anywhere. Hon. Thos. Worthington presided and requested Rev. W. H. Marbach to offer prayer after which the chairman said in brief: A Notable Date.

Why are we here? Nearly all the world has been fighting and out of that great conflict have arisen inevitable conditions not salutary to the welfare of the land. The I. W. W.'s and kindred organizations have shown their heads in other parts of the world and even our own land is not exempt from their baneful influence. May first has been the date for their red flag parades but this year the law and order forces have determined that true Americanism shall prevail and it has done so and this grand demonstration is an index of the sentiment in Jacksonville and the date will go down in history as one when true Americanism was displayed in a noble manner in many cities in our country and all over the land.

With fine effect the Madrigal club sang "America, the Beautiful" and then a thrill went through the audience as down the aisle from the entrance marched a group representing the well known picture "The Spirit of '76". The grey heads in the audience were carried back to their boyhood days as they heard the familiar and now almost forgotten strains of "Yankee Doodle" discoursed by Mr. Gilbert while the tall, grey haired drummer was admirably taken by T. M. Tomlinson who would not have been recognized by his best friends except for his size. The drummer boy was Grover Flynn.

More than 400 years ago such men as you sought this land to better their condition and 132 years ago the thirteen colonies sent delegates to a convention which framed the constitution which began with the immortal words, "We, the people". All classes met without distinction and the great document produced which guarantees equal rights to all and to the oppressed of the old world our land says come here, do right and you will have a chance in life. You may worship God according to the dictates of your conscience; your proper rights will be respected, and you will not be in a land such as Russia where the government may take the cradle from the babe; the food from the mother; the wedding ring from the bride. This is the only land in the world to which a man may come poor and die wealthy. During the great war a man appeared before an official and said he wanted to do something good to show his loyalty. He had arrived in this country naked. He had stowed himself away on a ship and to save deportation, the officers let him tie his clothes about his neck and try to swim ashore. He mistook the distance, gave out and was washed unconscious on the land where he was found and revived. He was permitted to stay and had made himself a comfortable fortune.

It is well to pause today and consider what duties devolve on us. We are here to bid you welcome to our land and we accept you as true Americans. Three of you served in the great war and all are loyal true Americans.

The gentlemen then marched on the state where Mr. Spruitt greeted each one by name as follows: Alfred Crozier, Jacksonville; Newham Edward Oddy, Alexander, R. F. D.; Harry Lead-III, Franklin, R. F. D.; Matthews Fortado, Jacksonville, R. F. D.; Christos Lampros Geanetos, Jacksonville; Basil John Geanetos, Jacksonville; Walter Foster Oddy, Alexander, R. R.; Isador Migdol, Jacksonville; Nicholas Mastro Pietro, Jacksonville, (Capps mill); Frank Cicero, Jacksonville, Capps Mill); Fred Chressan, John Koumas.

Then young ladies from the Madrigal club appeared and gave each new citizen a U. S. flag which was received as a great treasure. The audience rose and with a will sang "America" and then the mayor and several on the stage cordially greeted the new citizens who surely felt they had found a welcome.

The chair then introduced Attorney General Brundage who delivered a fine address excellent in many ways. It was calm and dispassionate, full of loyalty, a judicious blending of history and law. Only a very few of his remarks are offered.

I esteem it a great pleasure to visit such a beautiful place as this and really it seems hardly necessary to come here to preach Americanism judging by the sentiment of this meeting.

Forget First Principles. The downfall of nations in the past has been due to the forgetfulness of the principles which bind us together. The roots of democracy have sunk deep in the soil of this land. The New England Puritans came here to find a place where there was freedom

to worship God. They planted the schoolhouse, the church and the college and gave the land an impetus, a virility, a spirit of freedom invaluable. The spirit of liberty went from one colony to another and the little colonies grew till the French war of 1755. That was settled in our favor and then a stupid king tried to enforce unsavory statutes which resulted in the battle of Bunker Hill and the war for independence.

In the city of Philadelphia, in the old building still standing, was framed the immortal declaration of Independence, but as the years passed on it became evident that the colonies must be a centralized government and then came the convention which formed the constitution. Seldom has a gathering comprised such intellectual giants as were assembled on that occasion. They took all means to safeguard the rights of the people. They provided for the three branches, legislative, judicial and executive. They provided for two houses of legislation so that the acts of one might be passed on by the other. The bill of rights guaranteed due privileges to all; the habeas corpus act provided that a man should not be unjustly arrested and confined and in general a model system of government and laws was established and this is now the only nation on earth where all may have the rights and abate to the greatest position in the gift of the people. We have had 55 millions of immigrants and they and their children have had full opportunity to rise in the world and many of them have become the best citizens of the land.

Good Citizens Welcome. It is not strange that some came from lands where there was great oppression and here tried to sow the seeds of discord and for all such we have the strongest condemnation. We welcome such men as we greet here as new citizens today. You have come here to help build up and make for yourselves and families homes and a place in society and all who come with clean hands are cordially greeted, but if they come to destroy our government they should be dealt with severely. We have seen a mighty world which has resulted in the destruction of monarchies and has kept the cruel invader from our land. Two million of the best blood of our country landed in France and turned the tide of defeat into victory and showed the world that while we prefer peace our brave boys are too much for the marshalled hosts of the cruel Hun and by their bravery, skill, reckless daring and noble intrepidity they astonished the world and added new lustre to our glorious flag.

We have one fault in our land and that is too much disrespect for law. This is a nation of law and only by respecting it can we succeed. Obedience to law should be taught in the family, the school and everywhere else. If we fail, we sow the seeds of anarchy and will have to reap the harvest. Let us be determined to be true to the trust reposed in us and worthy of the great heritage our forefathers have handed down to us and then shall we go on from conquest to conquest till Old Glory waves in triumph over all our land.

The "Battle Hymn of the Republic" was then grandly sung by the Madrigal club and audience. In a few well chosen words Mr. Worthington thanked all who had helped make the occasion a success and the benediction by Rev. J. F. Langton ended the exercises.

Mrs. P. C. Thompson had charge of the pageant and costumes of the revolutionary heroes.

The decorations of the opera house attracted especial attention. This work was in charge of Lloyd S. Reid and was of course well done.

The committee which arranged for the day's observance included Rev. M. L. Pontius, chairman, Hon. Thomas Worthington, C. Spruitt, Mrs. J. H. Danskin and C. A. Johnson.

ECHOES FROM THE FARM Did you ever see so much rain? I don't think I ever did; it seems as though there is no let up to it. It is too late now to sow oats, and it simply means that there will have to be more land planted in corn. Help is so scarce and feed is so high, that I don't know what we are going to do. It seems that the only remedy is to buy a Fordson Tractor. C. N. PRIEST, the Ford Man, has one on the floor and I think I'll go in and get it and make up for lost time.

## UNION BAPTIST CHURCH PLANS NEW BUILDING

Steps Taken to Erect \$20,000 Edifice—Large Amount Subscribed Including \$10,000 by A. A. Curry—Rev. F. M. Crabtree Has Been Successful in Pastorate

The good people of Union Baptist church, Pisgah precinct, have decided to build a church right away and possibly a parsonage later on. To think was to act and to act was to go ahead. It was decided to have a modern, up to date building, probably of brick and stone, and every way suitable for the congregation which was outgrown the present structure.

It was decided to have a church costing not less than \$20,000 and to that end steps were at once taken to raise the funds. The worthy pastor, Rev. F. M. Crabtree, was made chairman of the soliciting committee and made a good start when A. A. Curry led out with a subscription of \$10,000. There is another of \$1,000 and several of \$500 and it is expected to have the whole raised by next Sunday night.

All the details have not been fully decided on but they will be in due season. The new building will be on present site which is excellent and it will be worthy of the place and the people. A parsonage is also a possibility at least and may even be a consummation tho it has not yet been discussed except informally. An excellent spirit pervades the church and the decision to build was unanimous. Rev. F. M. Crabtree has been the acceptable pastor of the church for the past five years and his work as pastor and preacher has been very acceptable as witness the enterprise now so enthusiastically undertaken. Mr. Crabtree is a man who loves his people and his work. He is consecrated and devoted and at the same time is gifted with a good lot of common, every day sense which is a valuable asset for any minister. The church has grown under his administration and he has just cause for pleasure when he regards what he has accomplished.

The people also are to be credited with working together harmoniously and the generous gift of Mr. Curry is noteworthy and shows that the gentleman believes that religion consists in giving to the work of the Master as one is blessed as well as in attending to religious duties on Sunday. The church is certainly to be congratulated.

## Swift & Company Does Not Control Its Raw Material

Other industries can buy their raw materials according to need or judgment, and set a selling price. They need manufacture only what they can sell at their price.

Cotton, wool, wheat, lumber, iron, steel, and other non-perishables, can be held either by their producers or their users until needed.

But live stock comes to market every day in fluctuating quantities from scattered sources, wholly uncontrolled and at times without regard to market needs.

An immediate outlet must be found for the perishable products, at whatever price, as only a very small proportion can be stored.

No one can foresee or stipulate what they shall bring; prices must fluctuate from day to day to insure keeping the market clear.

Only the most exacting care of every detail of distribution enables Swift & Company to make the small profit from all sources of a fraction of a cent per pound, necessary for it to continue to obtain capital and maintain operations.

## SCHOOL BOARD HELD REGULAR MEETING

Board Hears Reports and Approves Bills—Teachers Reported as Pleased With Bonus Received—Want Teachers to Sign Contracts for Coming Year.

The board of education had a regular session last evening, short, harmonious and business like. Financial reports were heard, bills of contractors passed on, and other matters received attention.

The Proceedings  
The board met in regular session with all present except Member Rogerson who was out of the city.

Bills for current expenses, \$1-424.02 and salaries \$17,317.83 were ordered paid.

Everybody who has bills against the board please be sure to present them by the 20th of the month if you want your money voted at the regular meeting the first Monday in the month. Partial payment of \$27,729.48 of English Brothers, contractors, for the new building, and Bernard Gause, \$5,274.42 were approved.

Payment of \$63 by the college athletic association for use of the gymnasium was reported.

Standing water was reported in the Washington school lot and the building and supplies committee was authorized to have all such low places suitably graded.

It was suggested that it would be wise to take measures to secure coal for next year.

It was also suggested that it would be well to have teachers sign contracts for next year.

Great satisfaction on the part of the teachers over the bonus was reported and an improvement in their work noted.

The high school building committee reported main work on building halted for lack of gravel which they hoped to have within a few days. Every possible effort to get it was being put forth.

The superintendent reported that high school tuition this year would probably total \$3,000.

Friday, May 14th, there will be exhibited in each ward building practical work of the pupils and all members as well as friends and patrons of the schools are urged to see the same.

Adjourned.

**POLICE NEWS.**  
Thomas Simms and Simmie Knight, colored, are being held at the police station on the charge of theft. The boys were taken in while attempting to sell tire and casing which had been stolen from a car belonging to L. F. O'Donnell.

The boys claim that William Crain, Alvie Dice and Frankie Goveie, white, were the real culprits. They said these boys stole the tire and casing and hid them and they watched them and then took the tire and casing and tried to sell it. All of the boys have figured more or less in police circles in recent months. They are all very young boys.

A social hour with music followed the program, the hostesses served refreshments.

The assistants to the hostesses were Misses Esther Wetzel, Naomi Wetzel and Fannie Wetzel.

### GRACE SUNDAY SCHOOL

Although the last four Sundays have not been inviting days for going to Sunday school there has been a very satisfactory interest and awakening in the various departments of the Grace church Sunday school.

Last Sunday there was an attendance of 268, and the regular Centenary offering amounted to \$65.18.

The women and girls won a total of 92 1/2 points yesterday to 7 1/2 won by the men and boys. However the men and boys are determined to redeem themselves in the next two Sundays. The total points stand 212 1/2 for the women and girls and 137 1/2 for the men and boys.

Next Sunday will be Mothers' day and the following Sunday will be Fathers' day. Appropriate programs will be rendered and the church membership is asked to co-operate on these two Sundays.

W. T. MeeKan was among the Jacksonville visitors from Woodson yesterday.

## The Meaning of a Name in Buying Spring Clothes

In buying your clothes this Spring, it is very important that you know the name of the maker. You don't buy an automobile by the color it is painted, you want to know who made it. You want a product that will give you the greatest service for the price you pay. When you invest your money in Kuppenheimer good clothes you get just that. Their excellent tailoring insures enduring shapeliness and lasting service; further, you get smart, sensible style, choice, all-wool fabrics—in short, all 'round satisfaction.

## New Styles for Young Men

The new Spring Styles for young men represent the height of perfection in clothes-designing. The style creations in England and Italy have been recreated by the House of Kuppenheimer. They are developed in true "Yank" fashion, to gracefully fit the athletic forms of our robust, young Americans. Good value Suits

## BIRTHDAY SURPRISE FOR LITERBERRY MAN

Jesse Litter Given Pleasant Surprise by Friends Sunday— "Big Four" Fishing Club Reports—Other Literberry News.

Literberry, May 3—Jesse Litter of "Lily Cottage" was surprised on Sunday when he returned from church to find his home filled with friends and relatives, and in the dining room the table loaded with everything good to eat. He remembered then that it was his birthday and that he was seventy years old. Every one had a fine time. Mrs. Litter and Mrs. Daniels, his wife and daughter, had, gotten up this pleasant affair.

The Literberry Mission Circle met on Friday afternoon at "The Zephyrus" with Mrs. C. A. Beavers, hostess. Seven members were present. During the business transactions it was moved that the Circle make an offering of twenty dollars to the drive of

the Interchurch World movement. Carried. The Literberry Guild girls will be invited to go in with the circle as they are the only two Missionary societies of the Baptist church at this place. Mrs. Beavers served splendid refreshments; ham sandwiches, pickles, eggs, great slices of lovely angel food cake and java coffee with Jersey cream and plenty of sugar. An offering was taken of \$3.75. The May meeting will be at Sunshine cottage.

Mrs. Hattie Norman and daughter Lenora of Springfield have returned home after a visit at Maple Mount with Mrs. W. W. Young and family.

We have been ordered to send in our semi annual report of the "Big Four" Fishing Club. We can say that the club has wintered in fine shape; the members showing considerable zeal for the coming season. There have been many new reels and stout lines purchased, lunch boxes cleaned and bait cans made ready. We expected to open the season much earlier this season than last, but the backward spring and high water discouraged us so much that a committee of pioneers were sent out to make a survey of the fishing grounds in the vicinity of Wolf Lake. This committee consisted of J. A. Litter, J. S. Hitchens and ourself. The time was for the first day of May and all were ready for duty except J. A. Litter who got cold feet and hired Fonzo Ratliff for a substitute; a good selection as Fonzo's game and a good fisherman, when he doesn't get the fish. There would have been trouble for Mr. Litter for his action had he not always been ready for any emergency, and first in any enterprise; this being the case his backdown will be overlooked. The committee went to their work in real earnest and you never saw three fellows work harder than they did to accomplish a good result. But the hand of fate was against us and there is no use trying to buck against fate. We were hooded early in the morning. We hardly had our hooks in when a lank, hungry looking dog stood on a trestle directly above us and howled to beat the band. We knew then that we were beaten for we did not want to dampen their ardor. We fished up the creek and down the creek in very best style and the summing up is easy. Hitch took three measly bull heads; we took one good sunfish and Fonzo was skunked. The report was accepted and the committee discharged. We will also state that there are no new members in the club, but a good many have applied for membership, without success. Billy Murry, Jim McFillen and Capper Brown being the most persistent, but their chances are at zero. Non-resident members will take notice that their annual dues must be sent in if they expect to be in good standing during this season. All of which is respectfully submitted.

## Protect Your Property With Certain-teed Roofing

Certain-teed Roofing shelters your property against the severest storms. Driving rain will develop no leaks. Melting snow and ice will find no cracks or crevices through which to enter.

Certain-teed keeps the interiors of your barns and other buildings dry. It protects their contents from damage by water.

For when Certain-teed is properly laid, it is firmly cemented together. It makes an impenetrable one-piece roof.

And Certain-teed has other advantages. It is fire-retarding and spark-proof. It is guaranteed for 5, 10 or 15 years, according to weight.

Yet Certain-teed Roofing costs less to buy, less to lay and less to maintain, than any other type of good roofing.

See your dealer about Certain-teed. He either has it or can get it quickly from a nearby Certain-teed distributing center.

## MAXWELL

is built of special steels

There are few "stock" steels in a Maxwell. Nearly all the steels are special, made to Maxwell's own formulae, and developed in the Maxwell laboratories.

All the experience gained from the building of nearly 400,000 Maxwells, and the study of their use in nearly every country of the world, has been put into these special steels.

They made it possible to build the Maxwell lighter

in weight and to increase its strength.

Superfluous pounds thus eliminated from the chassis have resulted in increased ability in performance.

At the same time more endurance has been developed.

Thus it becomes obvious why Maxwell has climbed very rapidly into favor the world over.

Nearly 400,000 are now in use; and 100,000 more are being built this year.

**WIDELY-KNOWN EX-BALL PLAYER MAKES BIG "HIT"**  
Jerry Eddinger of Peoria Improved His System When He Tried Trutona.

Peoria, Ill., May 3.—A striking feature of the scores of testimonials given daily by grateful users of Trutona, is the large number that come from well-known and prominent people. Here is what Jerry Eddinger, widely-known ex-ball player and umpire, who lives at 409 North Elizabeth street, this city, thinks about the Perfect Tonic:

"My system was so badly run-down I knew I needed a good tonic to build me up. My stomach was out of shape and I suffered a lot from constipation. I seemed to have lost my appetite and felt tired and sluggish all the time. My nerves were a little unstrung, too, causing me to get poor rest at night. In fact, I just felt good-for-nothing and seemed to be all shot."

"I took Trutona as a system builder and as a result I feel myself coming out of all my trouble now. I sleep well now, I never notice the constipation and my appetite was never so good. I can eat anything. As a tonic and system builder Trutona is everything that is claimed for it, and I'm hoping these few words of praise from me will induce many sufferers to try it."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorator. It has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is being introduced and explained in Jacksonville at Coover & Shreve's Drug Store and is sold in Waverly by the Franklyn by the Wyle Drug Co.—Adv.

**RENEWED TESTIMONY**

No one in Jacksonville who suffers backache, headaches or distressing urinary ills can afford to ignore this Jacksonville woman's twice-told story. It is confirmed testimony that no Jacksonville resident can doubt.

Mrs. Mary J. Wyatt, 1025 Beesley Ave., Jacksonville, says: "I have used several boxes of Doan's Kidney Pills and I know from my good experience with them that I am safe in recommending them to all people to use for kidney trouble. I was troubled with disordered kidneys and rheumatic pains. Doan's Kidney Pills did good work for me and I know they are the best kidney remedy."

**TWO YEARS LATER** Mrs. Wyatt said: "During the past two years Doan's Kidney Pills have done fine work whenever I have had need to use them. They always relieve the rheumatic twinges, strengthen my kidneys and give me new energy."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wyatt had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

## WHAT IS RHEUMATISM? WHY SUFFER FROM IT?

**Sufferers Should Realize That it is a Blood Infection and Can Be Permanently Relieved.**

Rheumatism means that the blood has become saturated with uric acid poison. It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into the blood where the poi-

son lurks and which is not affected by salves and ointments. It is important that you rid yourself of this terrible disease before it goes too far. S. S. S. is the blood cleanser that has stood the test of time, having been in constant use for more than fifty years. It will do for you what it has done for thousands of others. S. S. S. is guaranteed purely vegetable. It will do the work and not harm the most delicate stomach.

**PLEASEING WORKMANSHIP**  
Of course you want your plumbing installed with careful regard to convenience of arrangement. This is our first thought when we undertake the work. But that is not all. We use particular precaution not to mar the walls or the floors of your home. We aim to leave the finished work as neat and tidy as possible. And we are exceptionally careful to see that all joints and connections are perfectly tight.

## To the Investing Public

**IN fairness to our clients, to the investing public, and to ourselves, S. W. STRAUS & CO., desire to make the following statements:**

We have no connection whatever with any other firm, company, or organization of similar name selling stock.

We do not deal in stock, either preferred or common.

We will continue, now as in the past, to underwrite and offer only first mortgage bonds of unimpeachable safety.

These facts we desire to emphasize because the public announcements of a house of similar name might give the erroneous impression that we have deviated from our policy of dealing only in the highest type of investment security—the first mortgage bond, safeguarded under the *Straus Plan*.

The fact that our method and plans have been widely imitated is evidence of the soundness of the principles we have followed and clearly indicates the place which this institution occupies in the financial life of the nation.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c. and 25c. a box.

Foley's Honey and Tar COMPOUND

CLEARS THE THROAT of phlegm and mucus, stops that tickling, opens the passages for easier breathing and coats the raw, inflamed surfaces with a healing, soothing medicine.

Grateful Father Tells What It Did  
W. E. Curry, 130 Up 6th St., Evansville, Ind., writes: "I have a little girl 6 years who has a good deal of trouble with croup. I have used Foley's Honey and Tar Compound, giving it to her according to directions, and obtaining instant relief for her. My wife and I use it whenever she has a cold or cough, and I will say that it is the best remedy for a bad cold, cough, throat trouble or croup that I ever saw."

Parents who use Foley's Honey and Tar know it is safe and no harm will come even if an overdose should be given by accident. It tastes good and children like it. It won't upset the delicate stomachs of young children, delicate persons or elderly people.

## NATSKI MEDICINE COMPANY TAKES DRASTIC ACTION

To Reduce the High Cost of Living

The Officers and Directors of the Natski Medicine Company, manufacturers of Natski Blood Purifier, have for some time viewed with grave concern the mounting costs of everything that enters into the lives of our people, not only for food, clothing, shoes, but also for those medicines that often are as necessary to the happiness and well being of many people, really more often necessary, as it is essential that we must be free from physical pain and suffering in order to enjoy the other necessities of life.

Realizing all this, the Natski Medicine Company has, by improved methods of manufacturing their Blood Purifier, been able to reduce to some extent, the manufacturing cost, and have agreed to further benefit the public, by cutting their profit down to almost nothing.

Following out this idea, they have decided to sell to the Drug trade in the future, Natski Blood Purifier, so that the users will be able to purchase the same for \$1.00 per bottle, plus 4c revenue stamp.

REMEMBER, the quality of our remedy will be kept up to its usual high standard, and the purchaser will not be buying an 8 oz. bottle in a 16 oz. carton, but a full 12 oz. bottle of our medicine for the sum of \$1.00.

It is sold by your druggist, and if he does not keep it send direct to the Natski Medicine Co., who are always ready to serve you.

If you need a spring tonic for the blood, if your appetite is gone, if you have rheumatic pains or any other blood diseases, get a bottle of this wonderful remedy without delay and convince yourself that what it has done for others it will do for you.

Watch these columns and read what people say this remedy has done for them.

It reached your eyes--  
Did it reach your HEART?

You've seen the Interchurch advertising. In newspapers. In magazines.

You know that 30 great denominations are co-operating in a world plan to make each church and each denomination render bigger, broader service for all mankind. You know something of the needs that must be met—

- More and better hospitals
- More and better Christian schools
- More doctors abroad
- More teachers abroad
- A living wage for ministers
- Americanization
- Meeting the rural problem
- An expanding program in our American cities.
- An adequate program of EVANGELISM for the whole world
- To make the spirit of Jesus dominant in our national and world problem and program.

You've read of this—It reached your eyes, but has it reached your heart?

Millions of members of our churches have already responded. Generously! The response is growing every day, every hour. But hundreds of thousands who are not connected with the churches, but are friendly to the EVANGELISTIC and PHILANTHROPIC program of the churches, have not been reached—hence this direct appeal.

If you have not been asked to give your share to this, God's work for mankind, give now and give from your heart.

## NOW!

Give now. Don't wait longer for a canvasser to call. You need send no payment now—your promise will be sufficient.

Please fill out the pledge below. Give the maximum amount according to your ability to give or as you have been prospered—this has meant thus far amounts ranging from many hundreds or thousands per month down to \$50.00 a month, \$25.00 a month, \$5.00 a month, \$1.00 a month—even the smallest amount will help carry on the great work of the KINGDOM of God just that much further. Write your address plainly and mail the pledge below today.
